

VK11 Kamloops Road Switcher (0600)
MEMORANDUM OF AGREEMENT BETWEEN CANADIAN PACIFIC
RAILWAY CO. & THE TEAMSTERS CANADA RAIL CONFERENCE – Div. 821

Purpose of Agreement

1. This local agreement will represent the establishment and operation of a Road Switcher Assignment at the Kamloops terminal to be known as VK11.

Coverage

2. Locomotive Engineers, Conductors and Trainpersons with home terminal Kamloops will be governed by the terms of this agreement.

Specific Language

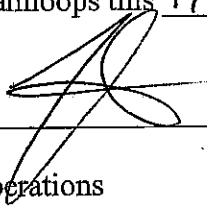

- 2) It is hereby agreed that effective April 6th, 2009 the VK11 (0600 Kamloops Road Switcher) shall be paid a fixed rate amount of 200 miles per tour of duty at road switcher rates.
- 3) The crew will consist of a Locomotive Engineer, Conductor, and Trainperson.
- 4) The Locomotive Engineer, Conductor and Trainperson on this assignment must fulfil the following terms and conditions to qualify for the fixed rate of pay.
- 5) If any member of the crew serves notice for rest in accordance with TCRC-LE Article 27.04 or TCRC-Conductor Article 29, the crew will no longer be considered to qualify for the fixed rate and will be compensated as per the respective Collective Agreement.
- 6) If rest has been booked and management decides to send relief for a specific crew member(s) the remainder of the crew will still be entitled to the fixed rate of pay.
- 7) As far as practicable all work must be completed as instructed. This could involve all of the crew members to be on duty up to the 12th hour.
- 8) In the event employees are on duty in excess of 12 hours they will be compensated on a per minute basis at a rate of double the hourly pay for all time so occupied in addition to the established fixed rate.
- 9) ~~Work days for assignment VK11 are Sunday – Thursday from 0600 to 1800.~~
Assigned rest days are Friday and Saturday.
- 10) There are no additional premiums for working on a General Holiday. Employees will be paid an amount equal to the earnings for the tour of duty prior to the General Holiday.

11) If the VK11 is cancelled on any working day (except on a GH) before reporting for duty, the crew will be entitled to payment of 100 miles (CJ claim) at road switcher rates for each day they are cancelled.

Clarification regarding Article 8.05: An Engineer who is regularly assigned in road switcher service and who performs a complete tour of duty exclusively within the yard or switching limits will be paid at yard rates of pay.

The yard/switching limits for Kamloops are the OMT'S at each end of the yard itself. Once you have traveled beyond these points (i.e. North or South Storage tracks, or delivery to the CNR interchange) road switcher rates apply.

Signed at Kamloops this 14th day of Oct. 2009.
